

# Timbers and Coatings

## Internal Solutions

Screenwood Systems are available in Western Red Cedar, Hoop Pine, Hemlock, American White Oak and Spotted Gum. Other timbers may be available upon request.

All panels are pre-finished prior to delivery and a wide range of finishes are available.

All of our internal coatings are low VOC and available in a range of colour stains. Solid paint colours are available on request.

Internal systems include SC15 acoustic backing.

## External Solutions

External Systems are available in Western Red Cedar and Spotted Gum.

All panels are pre-finished prior to delivery and a range of coloured oils coatings is available for use in Western Red Cedar.

Oil coatings will on average last 24 months before it needs recoating. These coatings have an oxidizing finish and slowly wear away.

External systems do not include SC15 acoustic backing.

We can guide you with compatibility when colour matching is required from internal to external areas.

Timber Species	Internal Low VOC Coatings	Internal/ External Oils
Western Red Cedar	clear	clear timber preservative
	natural	½ strength walnut
	teak	walnut
	½ strength walnut	grey
	walnut	black
	½ strength espresso	
	espresso	
	Japan black	
	paint finished (not white)
